

**MINI 3-DOOR.  
MINI 5-DOOR.**

# THE ORIGINAL MINI REBORN.

There's so much going on in the new MINI, it's almost impossible to know where to start when you first get behind the wheel. Fortunately, the biggest new addition is hard to miss – the MINI Centre Instrument lies at the very heart of the wealth of innovation at your fingertips. An LED ring runs round the edge, and offers your MINI an entirely new means of communicating with you. Just as between best friends, you'll find you don't need to speak to understand one another. And talking of good friends, MINI Connected allows you to share all the fun you have in your new MINI in real time, via Facebook, Twitter and foursquare. Hungry for more? For the first time ever, the MINI is available with 5 doors. Because we know there can never be too many customization options. Before we hit the road though, let us tell you a bit about Sir Alec Issigonis, the genius behind MINI, and also get a few words from the man himself. But don't worry – as you can see with his designs, he likes to keep things short.

The standard and optional equipment available in your country may differ from that described in this brochure. For more information, please contact your local authorized MINI dealer.

# DO THINGS DIFFERENTLY. AGAIN.

How do you go about inventing a legend like the MINI? According to its designer, Sir Alec Issigonis, you simply do things differently to everyone else. Aside from its 4 wheels and engine, his MINI had little in common with other vehicles on the market. Practically every other feature was different, and the car represented a revolution in automotive design. No other car manufacturer had ever used space more effectively, and the MINI was the perfect vehicle for its day.

Since then, nothing has changed at MINI. After all, when you reinvent an icon, you stick to proven principles – if something's worth doing again, it's worth doing differently. These words were our maxim when developing the new MINI. Why? Because we are firm believers that you can only create something new, if you create something truly different.

Want to get your hands on the new MINI? Then simply read on, and arrange a test drive. We guarantee the experience will be as new and unique as the vehicle you take to the road.

# TONIGHT EVERYTHING WILL BE DIFFERENT.

Below you, the city lights beckon. In front of you, the MINI Centre Instrument's LED ring glows. All you hear is the soft growl of the engine in your new MINI 5-Door, and your friends' excited conversation about the night to come. Clutch, change up to second, gas. The MINI TwinPower Turbo engine roars, pressing the 5 of you back into your seats. There are more friends waiting for you, and they're expecting you in 5 minutes.

More gas, then a quick touch of the MINI Driving Mode selector, and you're in

# SPORT MODE. ETA: 3 MINUTES.

As the engine revs up, the LED ring on the MINI Centre Instrument shines white, orange, then red, and the city becomes a blur. The twin exhaust tailpipes make a clear statement: here comes a MINI Cooper S 3-Door.

You reach an intersection. Which way? Time for an instant decision.

# YOU INDICATE LEFT. PROBLEM SOLVED.

The adaptive suspension springs into action, giving you a hit of that legendary MINI go-kart feeling as you take the corner.

The LEDs on the MINI Centre Instrument turn blue: It's a call from your friends, asking how far away you are. You ask the navigation system.

## IN 500 METRES, YOU'LL HAVE REACHED YOUR DESTINATION. SHAME.

Isn't there a less direct route you could take? There are still several thousand Internet radio stations to work your way through.

Anyway, you've arrived. But the night is young, and you're enjoying yourselves too much to get out.  
You're at the new bar on the river, and it's time to implement plan B. Tonight everything will be different.

# HIT THE GAS, NOT THE CLUBS. TEAR UP THE STREETS, NOT THE DANCEFLOOR.

Who's still up for it? Who's on their way? Check in then check out on Facebook and foursquare via  
MINI Connected, as the journey continues. On to something new. On to something entirely different.

## THE MINI WITH 3 DOORS.

### A SMALL CAR WITH BIG IDEAS.

Like its ancestor, the classic Mini, space is in anything but short supply. There are 4 roomy seats, and a surprisingly large luggage compartment, offering a generous 211 litres of space. There's the same legendary go-kart feeling as the classic Mini, and it still comes as standard.

### A MINI WILL ALWAYS BE A MINI.

The design of the new MINI is based mainly on the classic Mini, but with features like LED headlights pointing the way to the future. It's irresistibly eye-catching and effortlessly contemporary, reinterpreting the original MINI proportions and iconic design features like side scuttles and optional bonnet stripes.

### A POLISHED PERFORMANCE.

The new MINI comes with that quintessentially British design feature, the Chrome Line, adding a touch of brilliance to the radiator grille slats and surround, tailgate handle, and rear fog lights.

## THE MINI WITH 5 DOORS.

### MORE DOORS, MORE STYLE.

Even with 2 extra doors, the MINI 5-Door is very much a MINI. It has all the same genes as its 3-door sibling, plus a whole bunch of distinctive design features, like its dynamic roofline and tailgate.

### MORE SPACE MEANS MORE IDEAS.

Everyday practicality has never been so exciting. 5 seats, an impressive 278 litres of luggage space (for some stylish travel bags from the MINI Collection, perhaps), 5 ways of getting in – and more than 5 centimetres of extra legroom in the back.

MINI COLLECTION  
MINI LUGGAGE  
[www.MINI-shop.com](http://www.MINI-shop.com)

### AND THE SAME GO-KART FEELING AS STANDARD.

Of course the MINI 5-Door is bigger, but it still has the legendary go-kart feeling that has thrilled MINI drivers around the world for decades. We've achieved this by combining a low centre of gravity with a wide track width, a rigid body and suspension, and heaps of passion.

ONE

With 3 doors or 5, the MINI One/D packs a punch. There's a zippy 1.2-litre, 3-cylinder, 102-hp/75-kW petrol engine, or a 1.5-litre, 3-cylinder, 95-hp/70-kW diesel version. Both come with MINI TwinPower Turbo technology. It's designed to make a big visual impact, with a Matt Black safety bar and tailgate handle, radiator grille fins in Brilliant Black, and roof in the same colour as the car. The exterior mirror caps come in Matt Black as standard, and are available in body colour as an option.

COOPER

Here again, both Cooper models have plenty of power up their sleeves. The MINI Cooper has a 1.5-litre, 3-cylinder, 136-hp/100-kW petrol engine, while the MINI Cooper D comes with a 1.5-litre, 116-hp/85-kW diesel version. Both use MINI TwinPower Turbo technology. Unmistakably Cooper: the safety bar in Brilliant Black, radiator grille fins and tailgate handle in White Aluminium, roof and exterior mirror caps in an optional contrast colour, and tailpipes in Chrome.

# COOPER S

## UP TO 360 NM OF TORQUE: THE MINI MODELS.

When you choose a specific engine configuration, you get much more than just an engine. In fact, we refer to them as models rather than versions. From the MINI One/D to the MINI Cooper S/SD, each is a fully fledged car in its own right. So have fun deciding!

The top-of-the-line MINI 3-Door and MINI 5-Door models are the MINI Cooper S and the MINI Cooper SD. The former has a 2.0-litre, MINI TwinPower Turbo 4-cylinder, 192-hp/141-kW engine, which delivers up to 300 Nm of torque with the overboost function. The latter has a 2.0-litre, 170-hp/125-kW common-rail diesel engine. Both have a safety bar and tailgate handle in Brilliant Black, Chrome-rib mesh grille, Cooper S badge, brake-cooling track-style air ducts in the front bumper, air scoop in the bonnet, roof and exterior mirror caps in an optional contrast colour, rear apron with diffuser, 2 rear fog lights, and a centre-mounted twin-tailpipe exhaust.

TAILOR-MADE DOWN TO EVERY LAST DETAIL:

# MINI YOURS.

Industrialization ends where it began: in the United Kingdom. High-quality materials and individual assembly by hand make all the difference when it comes to creating a car that matches your own unique personality. From hand-sewn leather steering wheels to interior surfaces made of real wood, the MINI Yours customization programme allows you to choose exclusive products with unique histories. Discover the new MINI Yours optional equipment in this catalogue or contact your MINI dealer for more information.

# SOMETIMES A HUGE STEP FORWARD OFFERS A GREAT VIEW OF THE PAST.

Reinventing an icon like the MINI is no easy task. On the one hand, you have to create a vehicle that exceeds the demands of modern, twenty-first century motoring. On the other, you have to stay true to the Original MINI, and a design philosophy that has laid the foundations for over 50 years of success. To meet this twin challenge, we took an entirely new approach to create a car with a difference.

The new MINI is striking, and unmistakably modern. Even the classic detailing of the Chrome Line Exterior draws the eye in new, different ways. At the same time, however, the latest MINI generation showcases its legendary DNA more proudly than ever, and gives drivers that wonderful feeling of reconnecting with an old friend.

Please allow us to introduce ... a classic reborn.

# 3 DOORS. UNLIMITED POSSIBILITIES.

We offer more options for your new MINI than your heart could possibly desire. And the excitement begins long before the vehicle arrives – when you start putting together the interior.

## MINI 3-DOOR.

### ① COLOUR LINE.

More is more: alongside the standard finish in stylish Carbon Black, the knee roll and armrests are available in 4 eye-catching tones: Dark Truffle, Satellite Grey, Glowing Red and Shadow Grey.

### ② INTERIOR SURFACES.

It's definitely not off the peg: from Piano Black to MINI Yours Off-White with a stylish light band, add a personal touch to the decorative trim and door ellipses with one of 8 colour options.

# 5 DOORS, BUT YOU WON'T WANT TO GET OUT.

While the cockpit of the MINI 5-Door is the same as that of the MINI 3-Door, the bit behind the driver's seat is a whole different story. There's a whole extra seat, and door ellipses in the same colour and material as those in the front.

## 3 RINGS.

Round up: the rings on the air ducts, loudspeakers and gear selector lever are available in Piano Black, Dark Silver or an elegant Porcelain White finish, depending on the model and interior style. The Chrome Line Interior provides even more sparkle, with eye-catching Chrome around the air vents, loudspeakers and gear selector lever.

## 4 STRUCTURAL ELEMENTS.

Stylish highlights: the downtubes and door handles are available in Hazy Grey, Piano Black or Off-White, depending on the interior surfaces.

## INTERIOR SURFACES.

Decisions, decisions – we admit that choosing one of our 8 interior surfaces is no easy task. Whether you go for the embossed aluminium look of the new MINI Yours Fibre Alloy finish or the darker tones of Hazy Grey, you can be safe in the knowledge that they all look fantastic. Happy deliberating!

## COLOUR LINE.

Things have never looked brighter, with 5 Colour Line options also available. From Shadow Grey to Glowing Red, you're sure to find the perfect tone for your tastes.

[www.MINI.com/configurator](http://www.MINI.com/configurator)

# NOW THE BACK IS A

# WORK OF ART TOO.

Even the doors of your new MINI can be personalized in one of 3 ways. The colour and surface of the door ellipse depends on your choice of interior finish. In this case, for example, it's MINI Yours Off-White, with a stylish light band below the ellipse showing off all the colour nuances of the Ambient Lighting. The Colour Line – Shadow Grey in this case – also appears on your armrest. And the interior door mirror is always the same colour as that of the interior. In this example, it's Carbon Black.

Just because someone sits in the back of the car doesn't mean they should miss out on the luxury touches. So the MINI 5-Door has the same colours and surfaces on the rear doors as in the front. Here again, the door ellipses are in MINI Yours Off-White, and a light band radiates all the colours of the Ambient Lighting.

# HOWEVER MANY DOORS THERE ARE, THE FUN IS THE SAME.

Ever since the first car was built, designers have worked to increase passenger comfort. Engine noise has been reduced, and suspension set-ups made more absorbent, so that driving fast has always felt slower. We did the same, too. After all, it's nice to be able to chat when travelling at speed, and not to have to feel every single bump in the road. Yet increased quality, greater comfort, and improved acoustics all came at the cost of driving enjoyment. And that had to change. Ultimately, we understand you want to drive a MINI because you want to experience the same go-kart feeling that has thrilled MINI owners for generations. So we've lowered the centre of gravity, increased the track width and stiffened the suspension. As a result, drivers feel a direct connection with the road, and the sense of speed is restored to the driving experience. Every single model offers this set-up as standard, because we know what drivers want. And because we know that even the technology behind that go-kart feeling can be improved when you

**do things differently.**

# A MINI THAT SUITS YOUR MOOD: GO GREEN. THEN GO FASTER.

With MINI Driving Modes, one small ring around the shift gate can have a big impact on your driving. By simply twisting the dial, you can adapt the performance of your MINI to your current mood. Fancy a relaxed drive through town? Then go GREEN. It's easier on the environment – and on your nerves – with the throttle response optimized for fuel efficiency. Other fuel-consuming devices, such as the air conditioning, are also set up to operate as efficiently as possible. And in the MINI Centre Instrument, the MINIMALISM Analyser rewards economical driving with extra points. So you can kick back and enjoy the ride through the urban jungle.

Too sedate for you? Ramp up the excitement in SPORT mode, and your MINI will be just as spontaneous as you are. The LED ring on the MINI Centre Instrument is converted into a revolution counter, and your MINI is converted into an express train. The sport instrument cluster displays engine output and revolutions at all times on the screen, and with the optional sports suspension recognition, a more responsive accelerator pedal and more direct steering, you don't follow bends – they follow you.

# MI6 HAS GOT NOTHING ON THIS.

It's incredible how much technology can be packed into one compact car. With the Radio MINI Visual Boost with 6.5-inch screen, the ergonomic MINI Controller, and the MINI Connected interface, you can access all the digital functionality that the twenty-first century has to offer. What's not to like?

Driving Excitement

## MINI CONNECTED.

In-car infotainment for everyone: whether you have an Android\* or iOS device, the MINI Connected App links your smartphone to your new MINI flawlessly. It keeps you connected to your contacts via Twitter, Facebook and foursquare, and provides access to your phone's calendar function and "MINI Connected ready" apps – all via the screen of your new MINI.

\* Functions may vary. Android initially only for Samsung Galaxy S4/S5 and Google Nexus 4.

## TWITTER.

Tweet directly from your MINI and have messages read aloud. #MINIConnected

## DRIVING EXCITEMENT ANALYSER.

The analyser is the fourth component of the MINI Driving Excitement App, alongside the Force Meter, sport instrument cluster and Condition Check. It's also the most rewarding, allocating points for perfect acceleration, shifting, steering and braking.

## WEB RADIO.\*

More channels than you could possibly listen to.

## MINI CONTROLLER.

Operation is more intuitive than ever, allowing you to access key functions with the push of a button.

## NEW: KEY FOB WITH KEY CHAIN.

Give your pocket a personal twist, while adding even more functionality to your MINI: the NFC chip in the key chain means your NFC-enabled smartphone can automatically activate functions such as Bluetooth and open up the MINI Connected app. [www.MINI.com/accessories](http://www.MINI.com/accessories)

## MINI NAVIGATION SYSTEM.

GPS, TMC and USB updates to get you safely and quickly from A to B. The optional MINI navigation system with night mode and points-of-interest search function means you'll never lose your way again.

## FACEBOOK.

Stay in touch with your friends when out on the road.

## USB INTERFACE AS STANDARD.

Make your phone truly mobile with the USB audio interface, fitted as standard. Connect your smartphone with the USB cable to enjoy all the benefits of the MINI Connected app directly in your vehicle. To make and receive calls easily, an optional Bluetooth connection is also available.

# THE NEW 8.8" SCREEN. ACTUAL SIZE SHOWN.

If you ever wanted to know what a MINI crossed with a flatscreen would look like, look no further than the optional Wired package. A full 22.4-cm screen sits proudly in the centre of the cockpit. There's also the enhanced smartphone connection, voice control, and the new MINI Controller with touchpad, which provides quick and easy access to the various submenus and now includes a handwriting recognition function. It's particularly handy for adding addresses and telephone numbers to your MINI – simply "write" the characters on the surface of the large touchpad.

## LOOK AHEAD.

Always envied the Top Gun pilots for the information displayed in their helmets? Now you can enjoy the same system in your MINI. The optional Head-Up Display provides a range of vehicle information within your line of sight without obstructing your view of the road ahead. The data is projected onto a transparent film on the windscreen and includes speed limits, navigation instructions and radio stations. Now you'll never lose sight of the important things.

## AND LOOK BACK TO THE FUTURE.

As much as we'd love to have eyes in the back of our head, they're a long way off. MINI has the next best thing though: our reversing camera provides outstanding rear visibility, and aids parking by superimposing helpful markings. And talking of parking, the new optional Park Assist helps you find a space, and guides your MINI into tricky spots with ease. All while you leave passengers and passers-by looking on in amazement. Look, no hands!

MINI COLLECTION  
MEN'S MINI WORDMARK T-SHIRT  
[www.MINI-shop.com](http://www.MINI-shop.com)

# LEND MINI YOUR EARS.

Love music? Then you'll want to spend a lot more time in your MINI, thanks to the new, optional harman/kardon® audio system. The figures speak for themselves: 410 watts generated from 12 loudspeakers, including 2 central bass units beneath the front seats. It also uses an Auravox algorithm for frequency and phase correction, which translates into flawless audio reproduction in every seat.

## MINIMALISM.

Whichever paintwork you go for, your new MINI will always be green. The new MINI TwinPower Turbo engine ensures the vehicle is incredibly responsive yet incredibly economical at the same time. In combination with the Automatic Start/Stop function, tyres optimized to reduce roll resistance, Brake Energy Regeneration and the finest aerodynamics in its class, the engine delivers lower fuel consumption, and with it, lower CO<sub>2</sub> emissions. In the combined cycle, the MINI Cooper produces just 107–105 grams per kilometre, while MINI One/D models produce an equally impressive 92–89 grams per kilometre. All MINI models meet the EU6 emissions standard, and give British Racing Green a whole new meaning.

## ORIGINAL MINI ACCESSORIES.

Even more MINI for your money, with features like exterior mirror caps, rear-view mirror housings, side scuttles and sunscreen all in Speedwell Blue. We've also got additional LED headlights in Chrome, which provide incredible clarity in even the heaviest British rain. And check out the track-style 17" Multispoke Styling 505 light-alloy wheels in Liquid Black, which go beautifully with the Black Line option – which adds black rings around the headlights – and the black MINI roof box with an embossed MINI logo and optional adhesive sports stripes in Black or White. Hungry for more? No problem – you can see the entire Original MINI Accessories range online at [www.MINI.com/accessories](http://www.MINI.com/accessories)

MINI COLLECTION  
MINI FOLDING BIKE, BLACK  
[www.MINI-shop.com](http://www.MINI-shop.com)

## »» ONE MINI...

If you want to give your new MINI a little extra kick, John Cooper Works has the perfect solution. The John Cooper Works Exterior package is made up of optional 18" Cup Spoke 2-tone light-alloy wheels in burnished Black, or 17" Track Spoke light-alloy wheels in Black or Silver, an imposing rear bumper, and a front apron with integrated air ducts and side skirts – ensuring your MINI looks every inch the fiery contender.

## RED HOT PLEASE.

Like things even hotter? We offer all kinds of optional John Cooper Works Pro accessories off the shelf. Like John Cooper Works Pro 18" Cross Spoke Styling 506 light-alloy wheels in Jet Black, and Black Line bezels around the headlights. And then there are the John Cooper Works Pro aerodynamic components, consisting of front and rear splitters, a diffuser and additional rear spoiler attachments. For a suitably nerve-tingling sound, try the John Cooper Works tuning kit, which includes a John Cooper Works Pro valve silencer, tailpipe trims in Carbon or Chrome, and boosts the output of the engine.

[www.MINI.com/accessories](http://www.MINI.com/accessories)

# » AN EXTRA SHOT OF ADRENALINE.

## JOHN COOPER WORKS INTERIOR PACKAGE.

You can heat things up on the inside of the vehicle, too. The John Cooper Works Interior package is a great way to create a scorching track-style experience. It combines the John Cooper Works leather steering wheel and gear selector lever knob with contrast stitching in Chili Red, Double Stripe cloth sport seats, John Cooper Works door sill finishers, an Anthracite headliner and stainless steel pedal pads.

## JOHN COOPER WORKS 6-SPEED STEPTRONIC SPORT TRANSMISSION.

The perfect complement to the John Cooper Works Interior package: the new 6-speed Steptronic sport transmission for the MINI Cooper S/SD with automatic Start/Stop function offers faster gear shifts for a quicker, more dynamic drive. It can be engaged in manual mode using the shift paddles on the John Cooper Works leather steering wheel.

The racing line: John Cooper Works door sill finishers.

Reminiscent of the sports cars in their heyday: the John Cooper Works 6-speed Steptronic sport transmission.

# TAKE A WALK ON THE SAFE SIDE.

Allow us to introduce the latest member of our team. His main skill is that he's made up almost exclusively of crumple zones – as such, he's perfectly qualified to lead our safety work at MINI. He puts in shift after shift at our crash test centre, examining each of our latest developments. And every day he puts his body on the line – all to offer you a peerless level of safety and peace of mind.

He's certainly been busy recently. In each new MINI, you'll find the very latest safety equipment, including 6 airbags, a rigid passenger cell, and traditional driver assistance systems such as DSC, DTC, EDLC, ABS and CBC\*. We've also developed a raft of active driver assistance solutions, explained in detail over the next few pages.

\* DSC (Dynamic Stability Control), DTC (Dynamic Traction Control), EDLC (Electronic Differential Lock Control), ABS (Anti-lock Braking System) and CBC (Cornering Brake Control).

**S**hould you suffer an accident in your MINI, the vehicle can make an emergency call automatically with the optional MINI Emergency Call feature.

**O**ur system immediately transmits the position, direction of travel and accident severity to the emergency call HQ, via a dedicated SIM card.

①

**S**o help can get to you in a minimum of time.

## ② VISIBLY BETTER: YOUR OUTLOOK IN POOR WEATHER.

Rain, snow and frost can all spoil the view from your MINI. With the MINI visibility package however, you can even the score. A heated front windscreen, rain sensor and automatic headlight activation mean the weather will never dampen your fun.

## ③ OUR NEW ADDITION FOR YOUR NEW ADDITION.

If you have kids, you're as committed to innovation as we are. Our new MINI junior seat with Isofix base incorporates a range of innovations. These include patented airpad safety technology for gentle head support and increased side-impact protection, single-hand belt adjustment with positioning indicator, a comfortable 5-point belt, and easy-fasten magnetic belt tongues. All this in a choice of Union Jack or Vivid Green. A safety package of the very highest quality, as you'd expect from the MINI family.

MINI ACCESSORIES  
MINI JUNIOR SEAT  
[www.MINI.com/accessories](http://www.MINI.com/accessories)

④

## BECAUSE PEDESTRIANS NEED CRUMPLE ZONES TOO.

The pedestrian protection system raises the bonnet in lightning-quick time, providing an additional crumple area in the case of a head impact.

## ⑤ IF IT ALL BECOMES A BIT OF A SQUEEZE..

... your MINI makes it easier than ever to keep a safe difference from the vehicle in front. The optional collision warning system uses a built-in camera to activate visual and audio warnings of a potential impact. At high speeds, it presets the brakes for a rapid response and shorter stopping distances. In urban areas, braking is automatically activated at speeds of up to 60km/h if a collision with the vehicle in front, or a stationary vehicle, is unavoidable. The system also applies emergency braking if it detects a pedestrian crossing your path.

When on the road, it's important to do some things just like everyone else, such as keeping to speed limits. To make this easy, the Traffic Sign Memory function identifies every roadside sign, and warns you if you are driving too fast. After all, driving a MINI is about breaking conventions – not the law.

## MINI SERVICE.

### EVERYTHING YOU NEED.

Not many people will know your MINI as well as you do. MINI Service specialists however, share your passion entirely. There's nobody better when it comes to electrics, mechanics, bodywork, paintwork or cosmetic repairs – or when you need to pick up a replacement part. Because you'll soon realize that a MINI like yours deserves nothing less than MINI Original Parts.

### MINI KNOWS BEST.

Since you can't always think of everything when on the road, your MINI uses its head too. With the Condition Based Service feature, it automatically reminds you when its next service is due via the control display. The MINI TeleServices feature automatically transfers the most important vehicle data to MINI via a built-in SIM card. Your local MINI Service Centre will then contact you to make an appointment if any maintenance is necessary. What's more, in the unlikely event of a breakdown, you can also contact the specialists on our MINI Mobile Services team directly. If you don't need to use the service, you can deactivate it at any time. The Intelligent Emergency Call option is required to use MINI TeleServices.

### EXCLUSIVE: MINI SERVICE INCLUSIVE.

3 unique packages ensure you never have to deal with any unwelcome surprises. MINI Service Inclusive offers full cost transparency for maintenance work and wear-and-tear repairs. Find out more at [www.MINI.com/serviceinclusive](http://www.MINI.com/serviceinclusive)

### WE'LL ALWAYS BE THERE FOR YOUR MINI.

MINI Mobile Service is there when you need it, 24 hours a day, 365 days a year. We offer a comprehensive, country-specific transportation solution in the case of breakdowns, and incidental-costs insurance for accidents and theft. Specially trained MINI technicians provide solutions over the phone or on site, whatever the time, and wherever in the world you may be. Find out more at [www.MINI.com/mobilecare](http://www.MINI.com/mobilecare)

# MINI FINANCIAL SERVICES.

### THE FASTEST WAY TO A NEW MINI.

Before you've even taken delivery of your MINI, get on the right track with MINI Financial Services. Follow these 3 simple steps to the car of your dreams.

Step 1: Choose one of either MINI Leasing, MINI Financing or MINI Select, depending on your situation and requirements.

Step 2: Select a tailored insurance package from MINI Financial Services.

Step 3: Enjoy the security that comes with total peace of mind.

All clear? Then head to your nearest MINI dealer now. Our sales advisors know every one of our products available inside out, and it's their job to make owning a MINI as easy as possible.\*

\* For more information about MINI Financial Services, its leasing, finance and insurance products, and the companies through which these products are provided in your country, visit [www.MINI.com](http://www.MINI.com) or speak to your MINI dealer. Products and services may vary from country to country.

<sup>1</sup> All figures relate to vehicles with the standard 6-speed manual transmission. Figures in square brackets relate to vehicles with 6-speed Steptronic Transmission.

<sup>2</sup> All Mini models comply with the EU6 exhaust emissions standard. Fuel consumption is determined in accordance with the ECE driving cycle (as defined in directive 90/1268/EEC), made up of approximately one third urban and two thirds extra-urban driving (based on the distance covered). CO<sub>2</sub> emissions are measured separately from fuel consumption.

Figures relate to standard-specification vehicles, and may vary significantly where optional equipment (including wider tyres) is fitted. Figures for fuel consumption and CO<sub>2</sub> emissions may vary depending on the wheels and tyres fitted.

<sup>3</sup> Assuming car is fuelled to 90% of usable tank capacity, and allowing 68 kilograms for the driver and 7 kilograms for luggage. Figure quoted is for standard-specification vehicles. Optional equipment will increase this figure.

The equipment listed above refers only to the options featured in this catalogue. For more equipment options, visit [www.MINI.com/configurator](http://www.MINI.com/configurator). All information concerning equipment and availability is subject to change and without any liability.

**WARRANTY.**

Every MINI is supplied with a 2-year dealer warranty against manufacturing defects. Repair work can be carried out at any authorized MINI dealer, MINI Service Authorized Workshop or any other service centre authorized by MINI. Defects arising in the first 6 months after purchase are deemed by law to have existed at the time of purchase and the dealer has the onus of proving that the vehicle is not defective due to a manufacturing defect. Every MINI also comes with a 12-year anticorrosion warranty, which covers the vehicle against rusting of the body panels. The painted surfaces of the car are covered by a 3-year warranty. This warranty does not cover damage to the vehicle body or under-body caused by stone impacts, scratches or dents, accident damage or other damage caused by environmental factors. Failure to comply with the service schedule provided by the manufacturer may invalidate this warranty.

**RECYCLING.**

At every stage, from design to disassembly, recycling is central to the MINI philosophy. For example, all the materials used in its manufacture were selected because they can be used in the most sustainable and environmentally friendly way possible. That way, every MINI can be efficiently and ecologically recycled when its driving days are finally done. We have been working on this approach since 1994 at the BMW Group Recycling and Disassembly Centre in Munich, the only facility of its kind. Your MINI dealer will be pleased to advise you on the disposal of your old vehicle. Alternatively, more information on this subject can also be found at [www.MINI.com](http://www.MINI.com)

**IN A NUTSHELL:**

Experience the new MINI 3-Door  
[www.MINI.com/newMINI](http://www.MINI.com/newMINI)

or the new MINI 5-Door  
[www.MINI.com/5door](http://www.MINI.com/5door)

and book a test drive with a difference  
at your MINI dealership.

## JULY 2014
